COMPLIANCE STATEMENT REGARDING
Per- and polyfluoroalkyl substances (PFAS)

According to European Chemicals Agency (ECHA), per- and polyfluoroalkyl substances (PFAS) are a large class of thousands of synthetic chemicals, considered as environmental pollutants and some are linked to negative effects on human health.

United States Environmental Protection Agency (EPA) provides a list of 196 non-CBI PFAS in the Toxics Release Inventory (TRI).

European Chemicals Agency (ECHA) does not provide a specific PFAS restriction list, but a number of PFAS are on the REACH Candidate List of substances of very high concern (SVHC), for example, perfluorinated carboxylic acids (PFCAs), perfluorooctanoic acid (PFOA) and perfluorohexane-1-sulphonic acid and its salts [PFHxS]

Fischer Connectors hereby certifies that, to the best of its knowledge, its products* do not include any PFAS, from EPA list or from REACh SVHC list.
