

CABLE ASSEMBLY - INDIA

COMPLETE SOLUTIONS ENGINEERING SUPPORT LOCAL PRODUCTION

- Make in India commitment
- ISO 9001:2015 compliant facility
- Local expertise in design, manufacturing and testing
- Set-up for fast prototyping and high volume production
- Unparalleled quality & performance

CABLE ASSEMBLY SOLUTIONS

Fischer Connectors has a dedicated Cable Assembly facility in India producing high-performance cable assemblies designed to meet local customers needs and requirements for various industry sectors including Defense, Medical, Instrumentation and Industrial Automation.

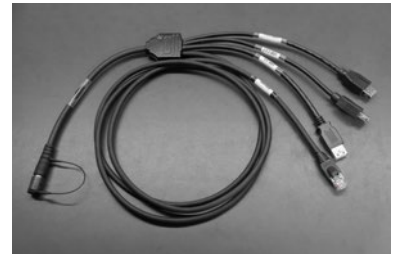

Our highly skilled local technical team manufacture rugged cable assembly solutions to comply with the highest connectivity standards and withstand weathering, abrasion, shock, vibration, temperature extremes, electromagnetic interferences, radiation, chemicals and sterilization and cleaning processes.

- **High sealing performance**
- **EMI shielding**
- **Flex life**
- **Resistance to tension force**

Fischer Connectors India is committed to the Make in India initiative and able to partner with customers to deliver connector and cable assembly solutions for both small quantity prototyping and high volume production requirements, and can offer:

- **Rugged, sealed cable assembly solutions**
- **Miniature and high-density solutions**
- **Wiring harness assemblies**
- **Customized and tailored cable assemblies**
- **EMI/EMC compliant solutions**
- **ESD-safe production line**
- **Clean room production environment**
- **ISO 9001:2015 certified quality management systems**
- **Local technical and on-site Field Application Support**
- **Dedicated Account Manager**

Our local team is further supported by Fischer Connectors' skilled in-house R&D, technical and engineering teams around the globe, with additional state-of-the-art manufacturing facilities in Europe, North America and Asia Pacific. This allows us to offer our customers even more finishing options to deliver the perfect solution.

Connect with our team of local experts to discuss your requirements and see how we can help you.
