

Fischer Keystone[™] 6 Plugin ATAK 4.8 installation guide

1. Connect Samsung Phone to computer

- Accept on the phone the 'allow access' question → Click 'Allow'
- Open Windows Explorer
- Select Samsung Phone and create a folder 'Keystone'

Nama	Lost modified
Name	Cast modified
>tmp	
> 🔁 Alarms	
> 🛅 Android	
> 📄 atak	
> 🛅 Audiobooks	
> DCIM	
> Documents	
> 🛅 Download	
> 🛅 Keystone	
> The Movies	
> 🛅 Music	
> 🛅 Notifications	
> E Pictures	
> Dodcasts	
> 🛅 Recordings	
> 📄 Ringtones	
> 🛅 USBCamera	

- Copy .apk to Keystone folder on the phone
- Wait it is all copied
- 2. Disconnect the phone from the computer

Install ATAK plugin

3. click on the 3 bars icon in upper right corner, then select Plugins icon (it's a puzzle piece shape icon, scroll in the open windows to find it)

Then 3 dots icon in upper right and select edit

Scroll down to "Local APK directory",

Click on the icon showing a phone, on the left of the filed "/sdcard/atak/support/apks/custom"

You are now at the root of the internal sdcard

13.07 23 2 4			07.68
Selec			
	🗂 🖌 /sdcard/		
Name		Date Size Chk	
Up. 🚞	Download	10 items	
	Keystone	6 items	
	Movies	1 items	
Loc Direc	Cancel		

Then navigate to the see the "Keystone" folder (the one you copied all the files in step 1) select this Keystone folder by clicking the square on the right of the screen, on the same line of Keystone folder indication.

Then click OK icon at the bottom

Then Sync icon

Then OK icon

You should see the Keystone plugin now

Click on it and validate the installation

You may be asked to allow ATAK to install app by the system

So click on "Settings", and allow ATAK app to install unknown apps

< 1	nstall unknown apps	ΞQ	
Installi	ng apps from this source may put your phone and data at risk.		<
8	ATAK 328 MB		
*	Bluetooth 553 KB		0
0	Chrome 29.13 MB		111
4	Drive 34.82 MB	Auto disabled	

A pop up will appear to allow you to continue the installation of the plugin, click on "Install"_____

Google Play Protect:
